

Web Developer. WEHCO Media, Inc with multi-state newspaper, cable television, high-speed internet, and digital phone operations has an immediate opening for a Web Developer. The Web Developer will focus primarily on the newspaper division and will work both independently and with a team of other engineers to ensure the success of software development projects including, but not limited to, assisting team leads on establishing project scope and expectations, participating in code reviews, managing support tickets related to supported applications, and maintaining an on-call schedule.

The ideal candidate will be fluent in HTML and Python and will have a bachelor's degree in computer science, information systems, or a related field or at least two years' experience developing web applications. An understanding of development operations and cloud technologies is also required.

Experience working in a fast-paced development environment where managing multiple priorities under pressure is a must. Experience with mobile app development is a plus.

Requirements:

- **HTML** — must be fluent
- **CSS** — styling, positioning, selectors and the cascade, responsive design - media queries, familiarity with flex and grid layouts
- **Javascript** — Intermediate level javascript skills, fluent at applying modern client side javascript to solve front end problems
- **Python** — able to do OO programming from scratch and able to design and execute CRUD applications/sites using Django framework
- **SQL** — must know well enough to write SQL queries
- **Networking** – error identification by number; debugging; curl and traceroute
- **Bash and Linux** – basics, SSH, directory structure, package manager, manage processes and jobs
- **NGINX or Apache** — Basic networking and troubleshooting, familiarity with the linux shell, and ability to configure and manage web servers like Apache or Nginx

Preferred experience:

- **CMS**— familiarity with content management systems and workflow related to news operations
- **PHP** with Laravel framework
- **SSL and Domain**— familiar with SSL and domain configuration
- **Authentication** — experience with integration of web-based authentication systems

We offer excellent full-time salary and benefits. Email your resume to jobs@wehco.com and include Web Developer in the subject line.
